CLEAF

可丽美潜心于对表面处理的研究，用心缔造每一场触觉与视觉盛宴。

其中，三款类型的产品 -- 饰面板、防火板、封边条 -- 形成了一个完美协调适配的系统，用以装饰家具和室内环境。

Ceppo 和 Traccia 是最新问世的两款产品。

Cleaf's research on surfaces generates tactile and visual experiences.

Three product types - faced panel, laminate, edge - create a perfect coordinated system to coat furniture and environments.

Ceppo and Traccia are the latest creations.

CEPPO

Ceppo 的特点是附在天然木材表面的一系列垂直打磨纹理，再现了带有生长痕迹的木材沿着木纹方向打磨的过程。纹理均匀而自然，适合与木纹和纯色系列的装饰纸结合使用。

Ceppo texture is characterized by a series of vertical stripes that recall the effect of brushing wood on which there are small pores. The result is a homogeneous and natural pattern that can be combined with decorative papers in wood essences and solid colours.

饰面板

基材: 三聚氰胺板 / 密度板
厚度: 8 ~ 38 mm
规格: 5600x2070 mm
背部表面处理: Ceppo

FACED PANEL

Core: chipboard or MDF
Thickness: from 8 to 38 mm
Format: 5600x2070 mm
Back texture: Ceppo

防火板

基材: HPL
厚度: 0.9 mm
规格: 2760x2040 mm

LAMINATE

Typology: HPL
Thickness: 0,9 mm
Format: 2760x2040 mm

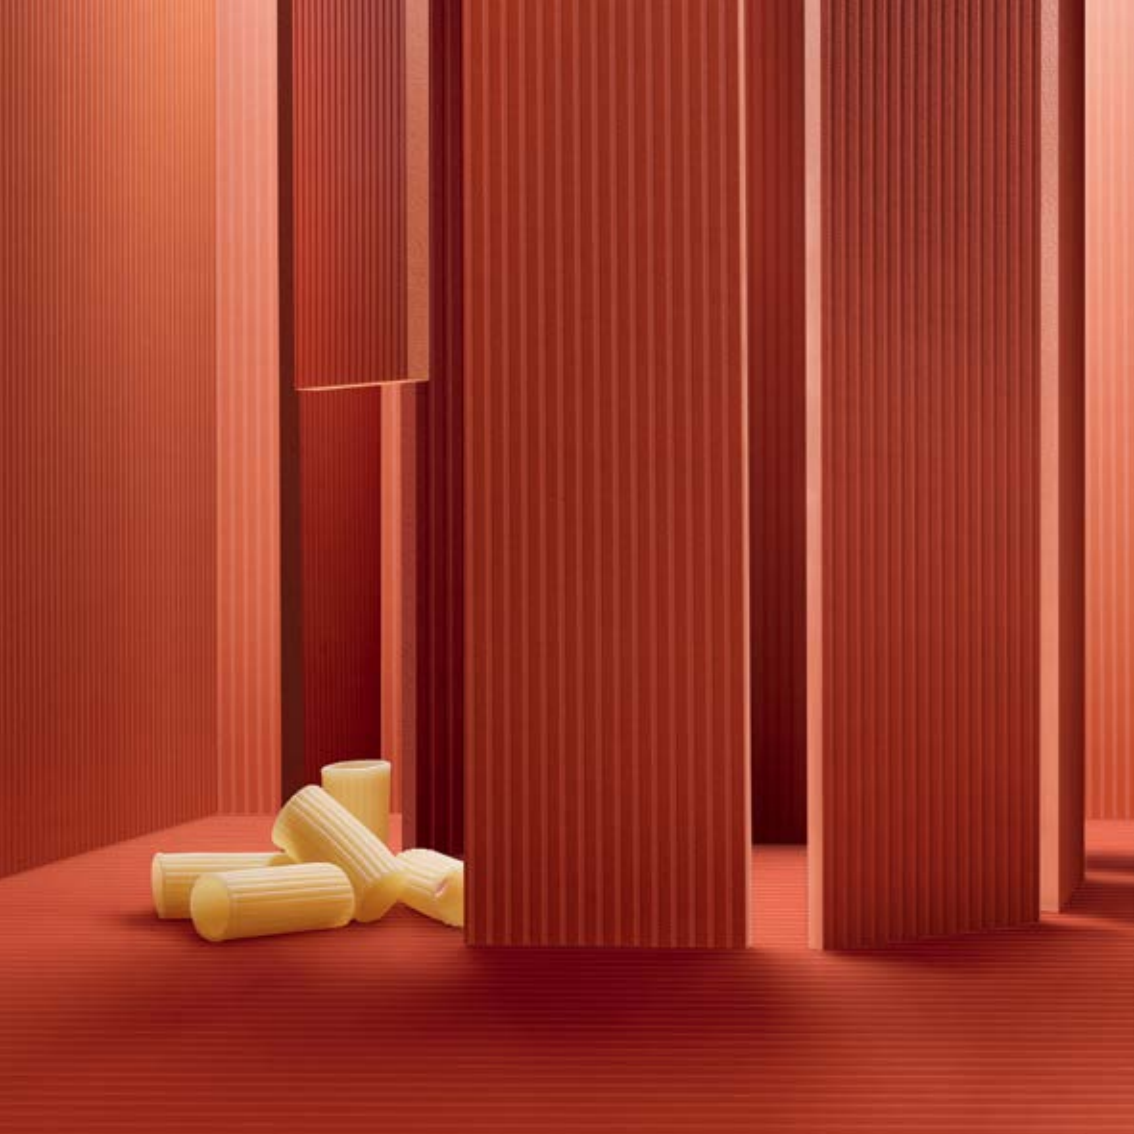

封边条

基材: ABS
厚度: 0.5 ~ 2.5 mm
规格: 12 mm / 卷
表面处理: Ceppo

EDGE

Typology: ABS
Thickness: from 0,5 to 2,5 mm
Format: rolls from 12 mm
Texture: Ceppo

TRACCIA

一系列凹凸起伏且间距相同的线条组成了表面处理 Traccia。

凸起的结构带有精细的设计与底部的光滑表面形成了鲜明的对比，由此高低错落间能够呈现出不同的光泽，在技术方面更具有辨识度。

Traccia 结合纯色装饰纸能发挥其最大的潜质。结合木纹、金属、纺织品以及石材效果的装饰纸，也能拥有意想不到的效果。

A series of positive and negative lines with a constant pitch identify Traccia texture. The contrast between the microstructure of the raised parts and the smooth surface of the depressions creates different levels of opacity, enhancing its technical aspect. Traccia expresses its maximum power in combination with solid colours decorative papers. Combined with wood, metal, fabric and stone effects it provides unexpected accents.

饰面板

基材: 三聚氰胺板 / 密度板

厚度: 8 ~ 38 mm

规格: 2800x2070 mm

背部表面处理: Fiocco

FACED PANEL

Support: chipboard or MDF

Thickness: from 8 to 38 mm

Format: 2800x2070 mm

Back texture: Fiocco

防火板

基材: HPL

厚度: 0.9 mm

规格: 2760x2040 mm

LAMINATE

Typology: HPL

Thickness: 0,9 mm

Format: 2760x2040 mm

封边条

基材: ABS

厚度: 0.5 ~ 2.5 mm

规格: 12 mm / 卷

背部表面处理: Fiocco

EDGE

Typology: ABS

Thickness: from 0,5 to 2,5 mm

Format: rolls from 12 mm

Texture: Fiocco

LIKE A BAR

在 2023 年米兰设计周之际，可丽芙推出 ***Like a bar***，由 **Audo Architects** 制作完成。旨在不改变物品形状的情况下，充分发挥表面处理在定义家具设计与室内空间中的力量。

酒吧主题的选择，源于其作为具有温度的社交场景，是室内设计师尝试创新形式和材料时，创造出难忘体验的最佳选择之一。

在公司的CCube展厅内，一个纯白的酒吧坐落于大厅的中心，用以欢迎到访者，就像一个白色的模型，可以被赋予不同的表面处理和颜色。

其中，四个相同形态的酒吧由四种不同材质效果的表面处理制成，完美地诠释了表面处理的特别之处：个性化定制。

On the occasion of **Milan Design Week 2023**, Cleaf presents ***Like a bar***, a project developed in collaboration with **Audo Architects** that aims to emphasize **the power of surfaces** in defining furniture and interiors **without changing the shapes**.

The theme of the bar was chosen because it is one of the areas where interior designers are called **to experiment with innovative forms and materials to create a memorable experience of hospitality and socialization**.

A total white bar welcomes the visitor in the lobby of the **corporate showroom in Lissone**, like a white palette to be filled with textures and colours. In the four environments of the CCube, **four bars with the same layout in four different material effects** highlight the unique feature of the surfaces: **the personalization**.

MORNING BAR

早餐吧，这里是一天开始的地方。
一杯意式浓缩或卡布奇诺，配上美味的可颂面包，再与咖啡师闲聊二三。
在具有织物效果饰面板的早餐吧中，开启崭新而美好的一天。

The place where the day begins. A chat with the barista, drinking a coffee or a cappuccino eating a croissant. The morning bar is made of **fabric-effect products** to enhance the **feeling of well-being**.

LUNCH BAR

午餐吧，中午小憩的地方。
与同事一起或独自一人，食用一些简单的时令菜肴，清淡而营养。
石材效果的饰面板为午餐吧营造出现代都市的氛围。

The place for the mid-day break. Together with colleagues or alone, tasting some seasonal dishes trying to stay light. The lunch bar is made of **stone effect products** that give an **urban look**.

APERITIVO BAR

开胃酒吧，晚餐前与朋友小酌一杯放松身心的地方。
木纹效果的饰面板打造而成的开胃酒吧，给人亲切而熟悉的安全感。

The place where you relax by having a drink with friends before dinner. The aperitif bar is made of **wood-effect products** to create a **familiar atmosphere**.

DISCO BAR

迪斯科吧，喝着起泡酒随着音乐节奏舞动的地方。
迪斯科吧采用金属效果的饰面板制成，现代精致感应运而生。

The place to jump to the rhythm of music while sipping bollicine. The disco bar is made of **metal effect products** for a **contemporary feel**.

可丽芙是一家专注于美学和技术创新的家具和室内饰面设计生产企业，潜心于意大利制造，在布里安扎工业区具有4个饰面板，防火板，封边条以及半成品加工工厂。

可丽芙中国分公司位于上海浦东，具备办公室及展厅功能，致力于为中国客户带来最新的产品以及更全面的体验。

Cleaf is an Italian company producing innovative surfaces and solutions for the furniture and interior design industries. Faced panels, laminates and edges exclusively manufactured at production sites in Brianza. Cleaf China Co. Ltd., the Chinese branch of Cleaf, is based in Shanghai. Its role is to support Chinese distributors, furniture manufacturers and architects in choosing and purchasing Cleaf's innovative surfaces. It has a showroom and offices in Pudong district.
